

THE DEVIOS WOLD IN SHEEP'S SKIN

Once a wolf found a great difficulty to have the vigilance of the shepherd and his dogs. But one day luckily, it found the skin of a sheep that had been flayed and thrown aside, so the wolf with an agile mind decided to put it on over its own pelt. It strolled down among the sheep. The lambs that belonged to the sheep, whose skin the wolf was wearing, began to follow the wolf in the sheep's clothing. The lambs which followed the wolf were taken little apart from the flock. Since the wolf found a good opportunity, it soon made a meal of them. For some time he succeeded in deceiving the sheep, and enjoying hearty meals.

**Moral :** Sometimes a deceptive but witty brain is useful.

Clocks below are arranged in logical sequence. What time would it be in the last clock?

1.  $6 + \square + 7 = 15$
2.  $9 + 1 + \square = 19$
3.  $\square + 9 - 5 = 12$
4.  $7 - 3 + 4 = \square$
5.  $\square - 9 - 4 = 2$
